Exhibitor’s board meeting

The Congress of the German Society of Internal Medicine (Deutsche Gesellschaft für Innere Medizin e.V. – DGIM e.V.) would not be the leading forum for science and continuing education in the field of internal medicine in Germany if it was not for the involvement of the industry. This is why it is especially important to contact you as representative of the industry. For this reason we would like to cordially invite you attend the meeting of the exhibitors’ advisory committee in the context of the 122nd Congress of the German Society of Internal Medicine.

Date: Monday, 1st May 2017
Time: tba
Room: Media conference room, Dorint Kongresshotel Mannheim, Room 12

Together with Prof. Dr. med. Petra-Maria Schumm-Draeger, the President of this year’s Congress, and the President of the 124 Congress of the German Society of Internal Medicine 2018, Prof. Dr. med. Cornel Sieber, we would like to explain our objectives and intentions to you, and offer you a forum where you can put forward your suggestions, wishes and needs as an exhibitor. Our aim is to work with you to develop the Congress into an even better platform for interaction between doctors and industry, and ensure that your involvement in the DGIM e.V. Congress is even more efficient.

We look forward to your attending; no registration is necessary.

Prior approval by the organizer of the exhibition is necessary for suspensions. They are only allowed in exceptional cases.

Theft
In order to keep the danger of theft as low as possible, we ask you, in your own interest, not to leave your stand unattended after the delivery of exhibits. In general, a stand guarding, especially for the nights, is to be recommended. In any case, you should lock away valuable goods during the night. We recommend you never to leave your stand unattended during the opening hours and to make goods in danger of theft especially secure. On removal, we ask you not to leave your stand before valuable goods have been loaded or handed over to the carrier. If this is not possible, it is advisable to book a stand guarding.

Woodworking
The German regulation concerning hazardous substances (GefStoffV - §8 Paras. 2.2 and 2.7) requires that appropriate suction equipment be fitted to woodworking machines. If this regulation is not heeded, Rosengarten Congress Center will stop assembly work.
